The invocation was pronounced by the to occur in Algeria today. The invocation was pronounced by the Rev. C. W. Gallagher. Introductory remarks were made by Dr. A. J. Huntoon, chairman of the banquet committee, who introduced the Rev. J. M. Schick. The Rev. Dr. Schick made "Play Time" the subject of his address.

"Our Country's Cause," was the sub-ect of the Rev. Dr. Abram Simon's adject of the Rev. Dr. Abram Simon's ad-dress. William A. Morsell, rendered pa-triotic songs. Gen. B. Raum's address was followed by a recitation, "The Last G. A. R. Man," by Charles F. Dubois. Commander Lucius D. Alden, of Burn-side Post. spoke about the organization. Just before the guests left the spa-cious and tastefully decorated dining room, a memorial to the late H. C. Burch, proprietor and owner of the Eb-bitt House, where all of the twenty ban-quests of Burnside Post have been held, was read by Commander Alden.

# CARPETBAG CASH MAY BE PAID BACK

PIERRE, S. D., Jan. 9.—The return to the State of North Carolina of \$22,416 collected on bonds issued by that State during the "carpetbag" regime by the State of South Dakota, which collected the money on a suit, is advocated by retiring Gov. S. H. Elrod. South Dakota, the governor declared, has no moral right to the money, and he has recommended that the Legislature make an appropriation to return the money to the sister State.

"We took the money away from our sister State," said the governor, "simply because the law said we could. Might did not make right in this case. If the State of South Dakota returns this sum to coment the States together than anything that has happened since the civil war. Morally, we have no right to this money, and we ought to be brave and true enough to give it back."

Greene, tenor, given Monday evening in the baliroom of the Raleigh Hotel, missed one of the greatest treats of the sea-The concert was given for the son. The concert was given for the benefit of the Florence Crittenton Home. Two finer voices, each in its own way, are not frequently heard in the same concert. It was also a unique feature to hear a song recital by two men without the variation of the female voice or a plano solo. And it was not for one moment monotonics. Fact purpose

Against Lawyer.

It William Nelson Cromwell doesn't exhaust his supply of silence in the next two or three weeks, he will have a chance to exhibit it to District Attorney Baker. Senator Morgan has signified that he is only just beginning to get busy in his campaign against the recalcitrant New York lawyer who refuses to tell whath he know about Panama camal affairs.

What Morgan Wants.

What Morgan Wants.

What Morgan Wants.

What senator Morgan wants is to know ho invented the justly celebrated Panama revolution. The Senator always pronounces it "revolution," using an accent that sounds like quotation marks. Then he wants to know hom Mr. Cromwell got paid by the French Panama Company for selling its ditch to the United States; and finally, he is alive with curlosity as to why Mr. Cromwell is so tremendously necessary as an adviser in canal matters.

So he asked the Senate Canal Committee to have Mr. Cromwell appear January 2, in order that he may put to smooth the totake further proceedings.

The Senator then designs to lay the matter before the Senate and ask authorisation to proceed against Cromwell for contempt. In this proceeding it is designed to have the district at torney take up the matter, and if Mr. Morgan gets his way he will put Mr. Cromwell in just a state of the successes he matter before the Senate and ask authorisation to proceed against Cromwell for contempt. In this proceeding it is designed to have the district at torney take up the matter, and if Mr. Morgan gets his way he will put Mr. Cromwell in just that he answer questions that he claims would involve violation of professional confidence.

# AWFUL ECZEMA

Sight of Eye Destroyed by Disease-Tried Five Doctors but Grew Worse-In Agony Eight Months -Parents Discouraged, Until They Tried Cuticura Remedies

IN ONE WEEK ALL SORES DISAPPEARED

"Our little girl, one year and a half old, was taken with eczema or that was what the doctor said it was. We called in the family doctor and he gave some tablets and said she would be all right in a few days. The eczema grew worse and we called in doctor No. 2. He said she was teething, as soon as the teeth were through she would be all right. But she still grew worse. Doctor No. 3 said it was eczema. By this time she was nothing but a yellow, greenish sore. Well, he said he could help her, so we let him try it about a week. One morning we discovered a little yellow pimple on one of her eyes. Of course we phoned for doctor No. 3. He came over and looked her over and said that he could not do anything more for her, that we had better take her to some eye specialist, since it was an ulcer. So we went to Oswego to doctor No. 4, and he said the eyesight was gone, but that he could help it. We thought we would try doctor No. 5. Well, that proved the same, only he charged \$10 more than doctor No. 4. We were nearly discouraged. I saw one of the Cuticura a dvertisements in the paper and thought we would try the Cuticura Treatment, so I went and purchased a set of Cuticura Remedies, which cost me \$1, and in three days our daughter, who had been sick about eight months, showed great improvement, and in one week all sores had disappeared. Of course it could not restore the eyesight, but if we had used Cuticura in time I am confident that it would have saved the eye. We think disk, so that the clock might be called a gearless clock.

A quarter inch steel ball rolling on two inclined plates takes the place of pendulum and gearing. This steel ball rolls over the two inclined plates in just a minute and rolls off the lower plate into the lower hole of the disk, at the same time releasing the disk, which is always under tension imparted to it by two ball weights suspended in towers.

The disk carries thirty balls on one side, and when released by the rolling of the ball from the lower plates against a locking device, the disk turns the space on one hole, or one minute, and brings the uppermost ball into position to roll on the top plate and begin its zigzag course down the two inclined plates as did the preceding ball. Each ball rolls over the plates once in every there or luminutes.—Pacific Outlook.
